

Farleigh House

Routes & Parking

Routes

Sat Nav Postcode – BA2 7RX (please use this rather than our own, to ensure you arrive in the correct way). From this location (Hungerford Arms) please follow the directions outlined below.

There is an agreed one-way route into the estate which minimises the impact on our neighbours and other road users. All vehicles should only use the eastern access road from the A366 to enter the estate, which is nearly **opposite the Hungerford Arms**.

We politely ask that on no account the western access road, Church Farm Lane, be used (this is the exit route only).

Cars and small vehicles only

(HGVs and coaches, please see separate instructions)

➤ From Bath /Frome direction

Exit the A36 turning onto the A366 towards **Farleigh Hungerford**, you will enter a 30MPH zone, immediately after the **Hungerford Arms** turn right onto Tellisford Road (signposted Farleigh House). Take the third right, passing the front of the main house on your right, before coming up the drive and into the car park which is signposted.

From Bradford on Avon / Trowbridge direction

- From the A366 towards **Farleigh Hungerford**, you will go over two small bridges, and then bear right up a steep hill, just before the **Hungerford Arms** turn left onto Tellisford Road (signposted Farleigh House). Take the third right, passing the front of the main house on your right, before coming up the drive and into the car park which is signposted.

If travelling via Rode, you will come along the Tellisford Road, so will turn left up the main drive.

The routes outlined above are not suitable for HGVs, large articulated vehicles or coaches – please see separate directions outlined at the end of this document.

Access Routes to Farleigh House (Cars and small vehicles only)

Parking

Visitors to Farleigh can park in the visitor parking bays (as highlighted on the map). Anyone attending an event here at Farleigh can park in the event parking bays (as show on the map) although there will be additional signage on the day detailing this.

Please only park in marked bays, ensuring that no pedestrian routes are blocked. If the main car park (Car Park 1) is full, it is possible to turn right at its exit to follow the roads back toward the second, gravelled car park (Car Park 2)
