Risk Assessment

Task	Stage 3 - Return to Domestic Competition
Assessed by	Alex Cohen
Approved by	Zoe Tyler

Ref Number	BR- CV09
Date of Most Recent Review	29/01/2021
Date of Review	29/04/2021

Activity	Under current government guidelines we are operating under Stage 3 Return to Rugby. This is governed by the PGB Document "Minimum Operating Standards: Stage 3 Return to Domestic Competition Behind Closed Doors", published 5th August 2020. The restrictions around this activity are tightly controlled in order to protect players, staff, contractors and all those with whom they come into contact. This is a live document which is subject to continual review and will be updated as and when appropriate.

Hazard				Risk Rating				Control Measures		Relevant Activity										Residual Risk			
Number	Hazard The potential to cause harm	Risk How harm can occur	Who could be affected	Likelihood	Impact	Risk Number	Risk	URN	What measures can be put in place to reduce the risk	General	Documentation	Stadium Preparation	Staff and Player Arrival	General Movement	Game Play	Roles and Responsibilities	Broadcast / Media	Medical	External Stakeholders	Likelihood	Impact	Risk Number	Risk
	COVID-19 Disease	The contraction or spreading of the disease.	All staff All players Friends and family Any additional staff on site	4	4	16	HIGH	General												1	4	4	LOW
								G1	Bath Rugby has appointed a COVID-19 Manager (Sophie Bennett) who will, on behalf of the Club, be responsible and accountable for communication to all their players and playing staff.													
								G2	Bath Rugby has appointed a COVID-19 Medical Lead (Dr Guy Evans) who is accountable for ensuring that the medical elements of this document are met.													
								G3	Bath Rugby has appointed a COVID-19 Venue Operations Officer (Zoe Tyler).													
								G4	Bath Rugby has identified a COVID-19 Venue Red Zone Co-Ordinator (Kara Gonzalez).													
								G5	All players and rugby staff must have undertaken the Stage 1 and Stage 2 Education module in addition to the new Stage 3 module.													
								G6	All other staff must read the PGB Stage 3 Education written guide.													
								G7	Bath Rugby must brief all User Group leads with regards to the Club's Stage 3 COVID-19 Venue Operations Plan and Code of Conduct for Matches. This must be undertaken before any matches can commence.													
								G8	Bath Rugby must provide a copy of the COVID-19 Venue Operations Plan, COVID-19 medical education document and Code of Conduct to any User Group who requests these documents on the day.													
								G9	All Bath Rugby medical staff who will be undertaking the responsibilities of Pitchside medical care must have undertaken the PHICIS COVID-19 update course before working Pitchside.													
								G10	Bath Rugby must ensure all players, staff and User Groups have provided their written consent to participate in Stage 3, actively opting in and knowing that they are offered a personal conversation about the risks should they wish.													
								G11	Every person attending The Rec on a matchday must have completed the personal health check and contact symptom check questionnaire prior to arriving at The Rec.													
								G12	Every person must have a temperature check carried out prior to being given access to either Red or Amber Zones. This must be done using a non-touch thermometer.													
								G13	Every person subject to the PCR testing programme must have provided a negative sample at the most recent round of testing.													
								G14	Only cleared individuals may enter Red, Amber or Green zones.													
								G15	Only those specifically accredited and having passed all other assessments will be permitted access to the Red or Amber Zones. Physical accreditation must be issued and displayed by that person at all times.													
								G16	Red and Amber Zones must be clearly defined and impossible to accidentally move between.													
								G17	All zones and entrance and exits points must be clearly marked with appropriate signage.													
								G18	A Matchday Accreditation List must be kept of all User Groups attending the Rec on a Matchday. The Register must include the following details: - User Group - Name of staff member/ User Group Lead - Contact details of the staff member/ User Group Lead - Dates and time in/out of The Rec - Zone in which they have worked on the day - Name of any known close contact outside of the specific user group.													

G19	The assessment points must be staffed by a competent person, assisted by a member of security.												
G20	Bath Rugby must ensure that any personal data collected as required under these minimum operating standards are held securely as required by data protection legislation.												
G21	A stewarding plan must be put into place to manage any possible crowds attempting to watch the game.												
G22	A map must be created to clearly identify Red and Amber Zones. This map must be made available to all those attending The Rec.												
G23	An MDRO must be produced which identifies, amongst other things: - the period scheduled for each User Group to enter the Green Zone; - the period scheduled for each applicable User Group to enter the Accreditation Point for the Red Zone; - the period scheduled for each User Group to enter the Accreditation Area for the Amber Zone; - the times by which each User Group must have departed all zones pre and post-match;												
G24	All non-essential activities should be limited as far as possible, including catering.												
G25	Any squad catering must follow PGB guidelines - pre-packaged and wrapped and eaten using disposable utensils.												
G26	Bath Rugby must develop and maintain operational processes in consultation with its local emergency medical provider(s) that will ensure medical support and assistance can be accessed in the event of a potential life or limb threatening injury requiring immediate extrication and urgent medical care or hospitalisation.												
G27	Bath Rugby must identify within their risk assessment and COVID-19 Venue Operations Plan how emergency situations will be handled for any non-playing User Groups operating within The Rec.												
G28	Bath Rugby must have in place for each match a medical contingency plan. This must include contingencies if a key member of medical staff is unable to undertake their duties on match day (for example if they become symptomatic on the morning of a match). The contingency plan may include (but not limited to) identifying replacements for each key matchday role and stipulating that early and ongoing symptom and temperature checks/monitoring is undertaken before arrival at the match venue.												
G29	Bath Rugby must consult with their Match Day ambulance provider to ensure adequate availability before each match day. Bath Rugby must also liaise with their ambulance provider to ensure that they have available the full range of PPE to manage all eventualities during the match.												
G30	The statutory minimum medical equipment must be available at all times. All medical equipment must be cleaned after each use and cleaned after the conclusion of each match.												
G31	Bath Rugby must make available the previously approved seats for Hawkeye Concussion Management for all Stage 3 matches. The seats are for the use of: - The Hawkeye Technician - The Matchday Pitch-side Video Reviewer - The Independent Match Day Doctor												
G32	All Broadcast equipment must be placed as indicated on the COVID-19 Venue Operations Plans.												
Distancing													
D1	Social distancing must be in place for every person at all times, except as specifically outlined in the PGB Guidance, in order to prepare for and deliver the match.												
D2	Particular attention must be given to maintaining social distancing in the following locations: - Coaches box - Substitution benches - Technical zones - Tunnel - Warm-up areas - During communication between Coaches, Match Officials or Players												
D3	The accreditation point and its queue must be laid out in such a way to maintain social distancing at all times.												
D4	The Riverview Suite must be designated as the isolation room, to be used by any cleared person on site in Red or Amber Zones who presents with symptoms.												
D5	In order to maintain social distancing, Bath Rugby will use the entire changing room complex until after half time. The changing room must be laid out in a way to support social distancing.
